IMPROVING EFFICIENCY AND
ENSURING COMPLIANCE

CONTRIBUTIONS COMPLIANCE

PAYROLL AUDITING

An employer payroll compliance audit program helps plans determine if their participating employers are reporting and contributing for covered employees. These programs effectively and efficiently aid trustees in meeting their fiduciary responsibility and benefit members by making sure benefits are calculated based on correct contribution amounts.

Our experienced management team actively reviews each client's audit program, providing insights and recommendations from time-saving technologies to implementing controls to further safeguard that all reporting requirements are met.

DOL & IRS REGULATORY REPORTING

HELPING YOU NAVIGATE COMPLEX CHANGES AND REQUIREMENTS

Our complete scope of tax services includes much more than just simply preparing a government filing. We provide our clients with strategic tax planning, filing, and compliance expertise, making the entire process easier and saving valuable time and money.

We help employee benefit plans develop and implement tailored compliance strategies that fit their unique needs and get them closer to achieving their goals.
