HELPING LABOR UNIONS
NAVIGATE CHALLENGES

COMPLIANCE & REGULATORY REPORTING

HELPING YOU NAVIGATE COMPLEX CHANGES AND REQUIREMENTS

With constantly changing codes, laws and regulations, it can be difficult for many labor unions to keep up with tax reporting and stay ahead of regulatory and compliance updates. Our experienced audit and tax professionals remain current and well-versed in potential or upcoming legislative and regulatory changes so we can help your organization make more informed financial decisions. We help unions of all sizes plan, develop and implement tailored taxation strategies that fit their unique needs and get them closer to achieving their goals.

Our complete scope of tax services includes much more than preparation of 990's, 5500's and LM-2s, and other tax and regulatory filings. We also provide strategic planning and compliance expertise, making the entire process easier, more efficient and cost effective.

ACCOUNTING & FINANCIAL SERVICES

FREEING UP YOUR TIME SO YOU CAN FOCUS ON WHAT MATTERS MOST

Running an organization is a complicated and stressful job, but adding in reporting deadlines, changing requirements and limited internal resources can make it even tougher. To help make our clients' lives easier and enable them to put the focus back on their union's mission and members, we offer a full suite of accounting and financial services. Our solutions simplify our clients' accounting functions by allowing them to delegate many time-consuming and tedious accounting tasks to our team so they can concentrate on what matters most.

Your union can engage our team to handle specific accounting and financial services for any length of time. We can also assist in the recruiting process, helping you find quality candidates to fill key accounting positions.
